

## MODEL: EVO60- ASD/AHT/DP Offshore Support Tug

EVO offers this new design development from Robert Allan Ltd., created to address the growing worldwide demand for large and powerful offshore tugs. This class of tugs are designed to provide long range towing, anchor-handling and offshore support to the energy industry. Additional functions such as dive support, DP operations, and standby functions can also be accommodated. Length range for this design is from 55 to 75 metres

### FEATURES:

|                 |                           |
|-----------------|---------------------------|
| Length Overall  | - 60.0 metres             |
| Beam, Moulded   | - 15.0 metres             |
| Depth, Moulded  | - 7.8 metres              |
| Operating Draft | - 7.6 m (with skeg)       |
| Power           | - 10000 kW                |
| BP, ahead       | - 160 tonnes              |
| BP, astern      | - 150 tonnes              |
| DWT             | - 1000 tonnes             |
| Range           | - 5000 n.miles @ 15 knots |
